WE ARE ALMOST THERE

Enrollment Completion and Data Entry

Based upon our enrollment projections, we will reach our target sample size in late April 2021. Please do not delay entering your participants' data in the database to ensure a timely analysis.

**THE NEXT ROUND OF PAYMENTS IS PLANNED IN MARCH.
The deadline for data entry is March 5, 2021.**

Great News

Congratulations to Tauranga Hospital and Christchurch Hospital in New Zealand for their first enrolled patient. Waikato Hospital is now activated.

Version 7.0 of the research protocol has been sent to all participating sites. Please submit it to your REB (except for sites receiving approval from the CTO or MSSS). The amendment concerns the PK study. It does not require any changes to the informed consent form for sites that are not participating in the PK study. There are small changes to the consent form for sites participating in the PK study. Please return the protocol signature page signed by the local PI and the completed training log.

**There were 40 patients enrolled in LOVIT in February.
THANK YOU ALL!!**
