LOVIT

857 Patients Enrolled

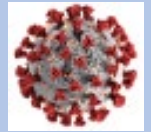

Remote Monitoring Visits

We are currently performing remote monitoring visits. We thank all participating sites for their excellent collaboration in this important process. We will monitor the data from 2 of the first 5 enrolled participants and 10% of the subsequent participants.

LOVIT-COVID

226 patients enrolled, 11 sites activated.

Congratulations to Royal Victoria Health Centre (Barrie) and to The Ottawa Hospital (General and Civic Campuses), which are now activated.

*** Interim Analysis ***

An interim analysis will be conducted when 250 participants have completed the trial. We anticipate that the interim analysis will take place at the end of August. Please ensure that all data are entered so that the interim analysis will not be delayed.

The next round of payments will be issued in September.
