LOVIT and LOVIT-C^{COVID}

Newsletter

Special Edition – April 22, 2021

Thank you for your enthusiastic and continued contributions to the LOVIT trial.

We have enrolled 831 patients and are close to reaching our final sample size. Enrollment in LOVIT has exceeded anticipated timelines – a direct result of all your incredible efforts and collaboration even in the context of the pandemic.

Thank you for this outstanding accomplishment.

At this time, we are pausing enrollment into LOVIT for clinical sites in Canada and France.

Our colleagues in New Zealand will continue to enroll to ensure that we are able to meet our sample size of patients without COVID-19.

Enrollment By Clinical Site

CIUSSS de l'Estrie - CHUS	204	Mount Sinai Hospital	15	McGill (RVH)	6
Juravinski Hospital	100	Royal Alexandra Hospital	12	Trois-Rivières (CIUSSS MCQ)	5

CHU de Quebec - Université Laval	15	Vitality Health Network	7	Hôpital Henri-Mondor, FR	1

We LOV(e) working wIth you!

LOVIT-C VID Trial

CONGRATULATIONS and THANK YOU

We want to recognize all the work and efforts made by participating sites in recruiting patients into LOVIT-COVID. Thank you for persevering despite all the challenges with enrolling patients during the pandemic. The 3rd wave is here which allows us to increase recruitment and help patients with COVID-19.

LOVIT-COVID remains open to enrollment.

If your site is interested in being part of the LOVIT-COVID trial, we would be happy to have you participate.

Enrollments

CIUSSS de l'Estrie – CHUS	60
Sunnybrook HSC	51
St-Joseph's Healthcare	14
Niagara Health	9
Royal Alexandra Hospital	5
Hamilton General Hospital	5
CHU de Québec – Université Laval	3
CHUM	3
Royal Victoria Regional Health Centre	-

Nine sites are activated and 150 patients has been enrolled so far.

IMPORTANT INFORMATION

For patients on positive pressure ventilation, the 24-hour period of exclusion criteria no. 2 starts when (1) the patient is in the ICU and (2) the COVID swab is positive – whichever is later.

If a patient receives vasopressors as a bolus (not an infusion) for the intubation, the patient can be enrolled.
